BRIEF SUMMARY

I am an MSc IT (Cyber Security and Forensics) student with a strong interest in cybersecurity, digital forensics, and emerging tech like machine learning and IoT. I've worked on diverse projects, including plant disease detection using image processing, and gained hands-on skills in scripting and security tools. I'm passionate about solving real-world problems through technology and aim to contribute to innovative, security-driven organizations.

KEY EXPERTISE

Cybersecurity,Networking,Python,JavaScript,HTML&CSS,Java
